Schedule:

- Get in: minimum 6 hours before performance
- Set-up time: 5 hours
- Rehearsals: 2 hours before performance
- Estimated time for load out: 1 hour

Performance length: 55 min.

If prerigging is possible, please inform the technical manager.

Arrival

On arrival we require parking in immediate vicinity to the venue and necessary parking permits for our whole stay. We need a clean stage and backstage. Temperature on stage must be minimum 22 degrees Celsius at all time.

Staff

On arrival we require minimum 2 stage hands helping us with assembly of the risers and cleaning the floor before the show. There should be at least one representative with good knowledge of the technical infrastructure of the venue available at all times. We require at least 2 stage hands during down rig.

Audience seating

The audience are seated within the performance area. Please contact the company for details.

Stage measurements

- The minimum required performance area is 10m x 8m.
 - The ideal required performance area is 12m x 10m.
 - Minimum proscenium/stage height is 3,4m. Preferably 5 m.
 - If stage has walls or objects with light colours or windows with transparent curtains, please cover with lightproof black molton/textile.
-

Stagecraft

The company require:

- A ladder or lift with working height according to the ceiling height.
- Black linoleum dance floor covering the performance area.
- All stagecraft equipment must be controlled and approved according to current regulations.
- 12 risers as part of the performance area with the following dimensions:
 - 4m x 2m, Height: 0,80 m
 - 6m x 1m, Height: 0,60 m
 - 6m x 1m, Height: 0.60 m
 - 4m x 1m, Height: 0,60m for musician, with safe, fixed railing at the back and a 4 m x 0,5 m, 1 m high sturdy table for musical equipment.
- All risers need to be level and in good shape with no wounds on the surface.
- Black skirting on all risers. Table for musician do not need skirting.
- Black draping (or pipe and drape) covering all four sides outside of the performance area.

Wardrobes

The company consists of 3 dancers, 1 musician and 1 technical staff. The company will need 2 wardrobes with mirrors with good lighting, adjoining toilets and showers.

Food

On arrival:

- Bottled water and fresh fruit for 5 people.

Load-out

We wish to perform load out as soon as possible after performance. Estimated load out time is 1 hour.

Sound:

Sound is operated by musician.

To be supplied by the venue:

- 1 x Yamaha 01v96 or Yamaha TF1 mixing console
- 1 x full spectrum PA system, placed in four corners of the performance area. Preferably with 4 tops and 2 subs.
- 2 x wireless vocal microphones + 2 receivers
- 1 x Dynamic Microphone (Shure SM58)
- 3 x straight microphone stands with round base
- 1 x boom microphone stand with round base - high
- 1 x boom microphone stand with round base - short
- All necessary XLR cabling

Lighting:

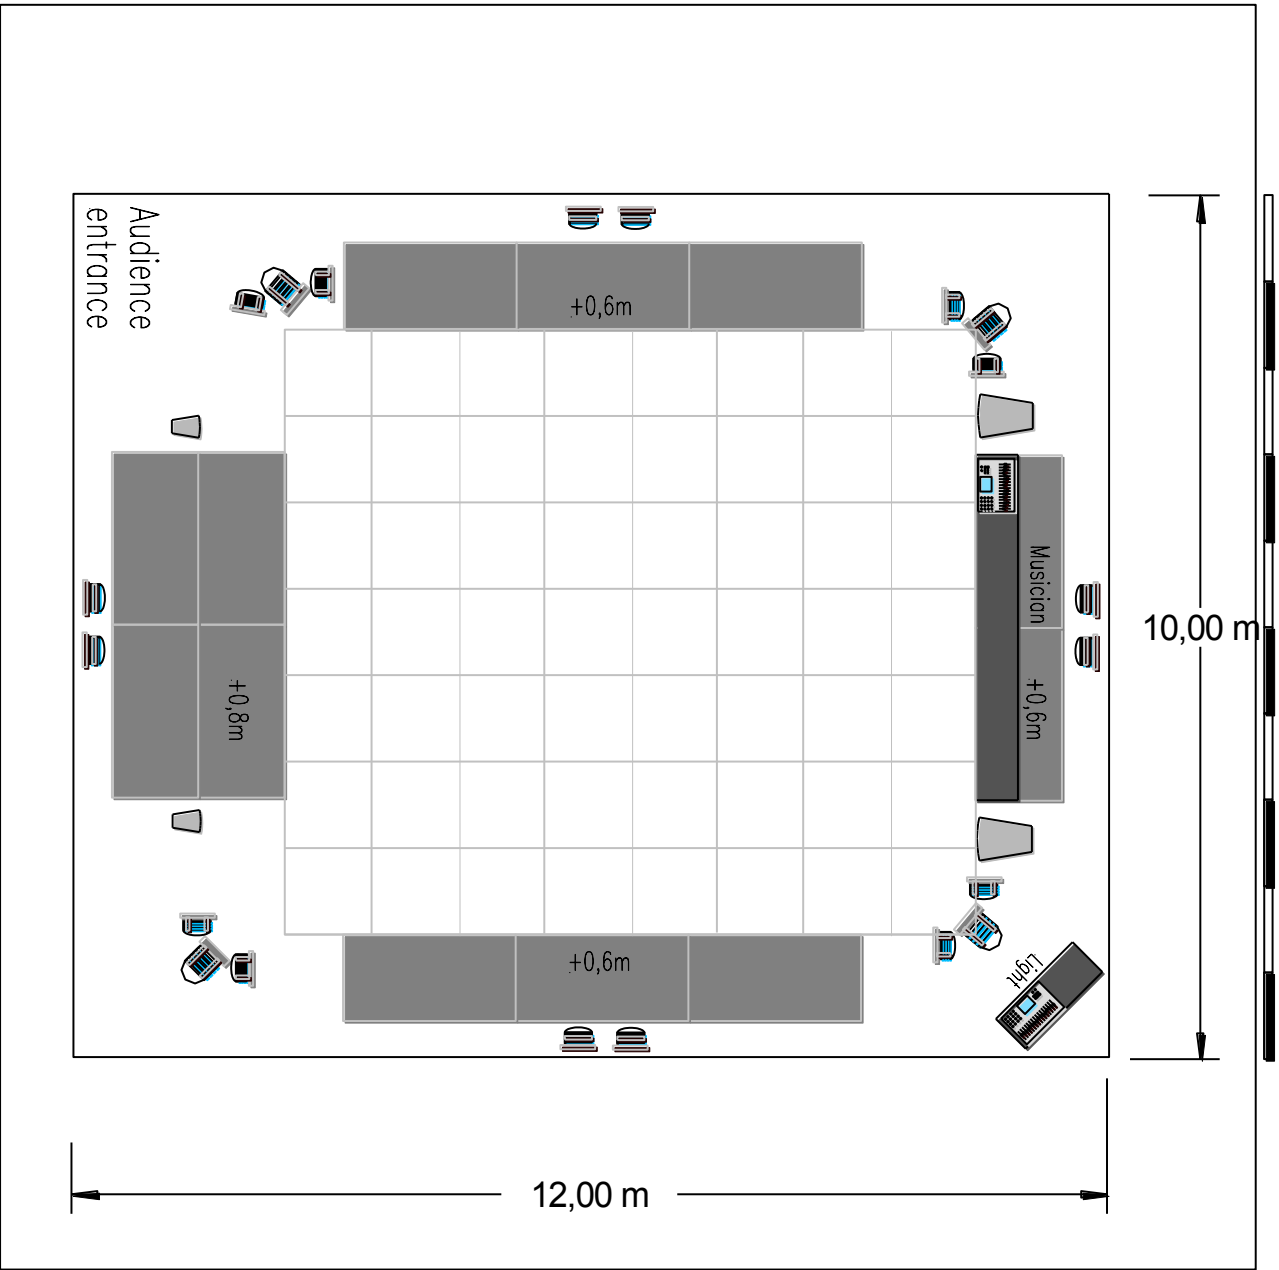

Lights are operated by technical staff.
